

Brenk Operating Platform — user guide

Tracking jobs from ServiceChannel through to getting paid

Getting around: sign in at app.brenkfacilityservices.com · the left menu switches between areas · the search box at the top filters Work Orders and Vendors (the Invoices tab has its own search).

THE TABS AT A GLANCE

	Dashboard	Morning overview — money tiles, the pipeline, and what's stuck.
	Work Orders	Every job, plus your own vendor and pricing tracking.
	Invoices	Real SC invoices, plus jobs still waiting to be priced.
	Vendors	Your sub-vendor roster, their jobs, and a calendar.
	Settings	Your default markup % per trade.

HOW TO DO THE EVERYDAY THINGS

1 Handle a new job

1. Open Work Orders and click the job ("Unassigned" is in red).
2. Assign a sub-vendor.
3. Text or call them, then Mark notified.

2 Price a completed job

1. Open the finished job.
2. In the Markup helper, enter cost + markup, or just type the total bill.
3. Keep it under the NTE (turns red if not), then Save.

3 Invoice it and get paid

1. Open in ServiceChannel and enter the invoice.
2. The Invoices tab follows it Sent → Approved → Paid.
3. Mark paid when the client pays.

4 See what's owed

1. Open Invoices → Awaiting payment.
2. Search by invoice #, work order #, or location.

5 Add a sub-vendor

1. Vendors → Add vendor.
2. Fill in contact, terms, trades, and notes.

6 Set markup defaults

1. Settings → set a % per trade.
2. It becomes the suggestion in the Markup helper.

7 Catch anything stalled

1. Dashboard → Stuck right now.
2. Click a stage to jump to those jobs.
